

# SNChart®

## Web-Based Transcription & Management System

Surgical Notes provides the highest quality transcriptions and most reliable turnaround time in the ASC industry. We also offer SNChart.com, a user-friendly, web-based transcription management portal, and a mobile app for physicians.

SNChart automates much of a surgery center's manual day-to-day transcription operations. Receive, review, edit, sign, and archive reports, all in one easy-to-use platform. A true industry innovator, Surgical Notes was one of the first companies to launch a mobile transcription app and continues to be one of the only companies to offer complete data integrity from start to finish by interfacing with practice management systems.

### SNChart Key Features

Standard next morning turnaround time with 2 hour STAT turnaround available

Dedicated transcriptionists and account managers

Several dictation options – handheld device, 24 hour dictation line, and mobile app for Android and iOS devices

User-friendly, HIPAA-compliant website with individual user accounts, customizable user permissions, and advanced audit trails

*“Through the use of Surgical Notes, dictation has been easy and efficient for our surgeons. They especially like the ability to be able to dictate and review their operative reports from off site. Surgical Notes helps us work smarter, not harder.”*

*– Cathy Fleming  
Clinical Director of Nursing  
Scottsdale McCormick  
Ranch Surgicenter*

## How will SNChart accelerate your revenue cycle?

- **Web-Based Transcription Management**

View, edit, sign, print, and download reports from a HIPAA-compliant web portal compatible with all browsers. Dashboards and color-coded status indicators identify workflow priorities and reports offer insightful data.

- **Practice Management System Interface**

Integration of surgery schedules with SNChart ensures 100% data integrity of patient demographic information and eliminates the need to manually send schedules for verification.

- **Auto-Distribution**

Physician offices can be automatically faxed or emailed a copy of each completed transcription depending on the physician's preference, eliminating time consuming manual processes.

- **Electronic Signature**

Physicians can conveniently sign their transcriptions – individually or in batches – at any time through SNChart.com or the mobile app.

- **Mobile Application**

Physicians can view their own schedule, dictate cases, and then review, edit, and E-Sign completed transcriptions from their Android or iOS device, expediting the transcription process to accelerate the revenue cycle.

## About Surgical Notes

Surgical Notes is a healthcare IT company dedicated to developing cutting-edge, innovative revenue cycle solutions for the ambulatory surgery center industry. By assimilating Surgical Notes' products and services, ASCs have access to an enterprise revenue cycle solution geared toward maximizing profitability, physician disbursements, and business office efficiency.
