

# SNChart®

## Mobile Transcription App

The SNChart mobile transcription app was designed for physicians, by physicians, to accelerate the transcription process while reducing manual processes. Users can view their personal schedule and dictate, as well as review, edit, and electronically sign their completed reports from their Android or iOS devices. Not only is the app a convenient feature for physicians, it also benefits the business office by reducing AR days.

### Mobile App Key Features

Biometric login enhances security and access

Advanced search assists with locating critical items quickly

Color-coded status indicators highlight important action items

Electronic signature speeds transcription process in a compliant manner

Multi-tasking support allows use of multiple apps and simultaneous receipt of incoming calls

Operative reports display images

*"We have implemented the mobile transcription app, and we have found that the Docs really like it. The ones that love their phones, love this app!!! And it has greatly increased our op notes being completed and decreased my time chasing them!"*

*– Kari Sroka  
Business Office Manager  
Illinois Sports Medicine &  
Orthopedic Surgery Center*

## How will the SNChart mobile app accelerate your transcription process & revenue cycle?

- **Practice Management System Interface**

Integration of surgery schedules with SNChart ensures 100% data integrity of patient demographic information and eliminates the need to manually send schedules for verification.

- **Dictation Reconciliation**

A pending dictation list ensures that no dictation is forgotten to help avoid coding and billing delays.

- **Dictation Recording & Upload**

Dictate and upload directly to Surgical Notes, on the go, eliminating the need to call a dictation line or use a handheld device.

- **Report Editing**

Transcriptions are available for review and editing as soon as the next business day, simplifying the transcription review process.

- **Electronic Signature**

Physicians can sign their transcriptions – individually or in batches – at any time, reducing AR days.

## About Surgical Notes

Surgical Notes is a healthcare IT company dedicated to developing cutting-edge, innovative revenue cycle solutions for the ambulatory surgery center industry. By assimilating Surgical Notes' products and services, ASCs have access to an enterprise revenue cycle solution geared toward maximizing profitability, physician disbursements, and business office efficiency.
